

## Error message

Posted by Leland Darryl Armstrong - 05 Jul 2013 19:45

---

VCS 7.0 has been installed and is working. When I download the Celebrity package and try to instakll it I get an error message: &quot;Cannot find valid installation VCS 7.0 Diamond at C:Program files (x86)AC VCS 7.0 DIAMOND. I simply want to get celebrity voices installed.

Any help would be appreciated.

Hi Leland,

Please make sure you have downloaded the latest build of VCSD 7.0.53. Or you can try reinstall VCSD then install the Celebrity pack.
