

is it possible to remove the voice

Posted by Al Dominic - 21 Aug 2011 06:27

Your software is really great... very user friendly... i didnt have hard times in learning & using it but wen i uploaded an MP3 file to convert to karaoke... after synchronizing all the stuffs and click finish there is still voice singing... it should be plain music only right no vocals! is there a way to remove the vocals? thanks so much GUYZ....

Hi Al Dominic,

Default AV Video Karaoke Maker software doesn't remove the vocal of the root song.

You can download the songs without vocal and use it.

Thanks
