

error happening during preview

Posted by Kangtreo - 31 Dec 2012 15:36

Hi,

i just trying to use AV Video karaoke first time when i export to video have some error message like this " error happening during preview "; when i press button preview, no show anything what must im doing?

any one can help me

=====

Hello,

Can you help us to capture the error message so that we could take better look on this problem?

Thank you for your help in advance.
