

Suggestion on female to male voices

Posted by Explicit - 25 Jan 2012 03:34

I just wanted to take suggestions on how I could change my voice from female to a realistic male voice. I have quite a girly young sounding voice, im 25 but sound probably 13, girly voice. So anyone got any recommendations on how to make it sound like a sexy/hot REALISTIC male voice. I've had the regular Voice Changer Softer and I can only seem to get it to sound like a soft male voice. Any suggestions on any of the programs or how to make it sound sexy/hot and realistic male, would be appreciated. Thanks in advance 🙏
