

## Vad not showing up:( HELP!

Posted by Silveus - 20 Jul 2011 23:10

---

I downloaded the demo for AV voice changer Gold 7, and everything installs correctly, except the Microphone (virtual audio driver). it doesn't show up in recording devices, or any of my recording/ talking programs. I am using icall to call people. i am also running windows 7. please help me!

Re-download latest version of VCSG 7.0 and try again exactly as instructed in the tutorial below in Win 7  
:

[support.audio4fun.com/tutorials/av-voice...in-windows-7-64-bits](http://support.audio4fun.com/tutorials/av-voice...in-windows-7-64-bits)

Be sure VAD installation successfully.

Please follow step by step in below:

- Go to iCall.
  - Select File menu >> Click on Settings command
  - In iCall settings windows >> Go to Audio options tab >> select Microphone (Avnex Virtual Audio Device).
