

## Voice Changer Eats up my HDD memory

Posted by Matthew - 21 Sep 2011 22:24

---

Hi, as I use Voice Changer 7, my memory of my c drive gets lesser and lesser. Any way I can solve this?

you can delete the folder &quot;AV\_LOGS&quot; ,they are just logs

file of VCS in case it causes trouble. And, usually they do not get too big. If they do, please just delete them all
