

sexy girl/young woman voice

Posted by avsp50662 - 08 Nov 2010 18:00

Hey I'm trying to morph my voice into that of a young woman/sexy teen kinda voice. I have the Diamond version that I purchased.

I can make my voice sound younger as a boy or a teen and it sounds pretty real, but any time I move into the upper sections, it sounds like I'm simply talking with helium. It's all munchkins from the wizard of oz. Any advice?
