

Can you upload a wav file into Voice Changer

Posted by myvoiceover1 - 12 Jan 2012 23:36

I have voice overs already recorded from another program that are saved as war or mp3 files and want to know if you can upload them into Boice Changer (all version) and then apply effects to that recording and then save it back out?

Hello,

Format default of nickvoices in AV Voice Changer Software is ***.nvc** , so you can't use ***.wav** or ***.mp3** format. But you can use Voice Morpher to create a new nickvoices
