

windows live messenger voice problems

Posted by avsp51063 - 29 Apr 2011 05:34

I have the same problem I can't get the software to work in windows live messenger...

I updated the software and reinstalled but no luck.

Please help!!

You can do follow 2 tutorials :

- Install the Virtual Audio Driver of Voice Changer Software:

support.audio4fun.com/products/voice-cha...in-windows-7-64-bits

- Using Windows Live Messenger with Voice Changer Software: support.audio4fun.com/products/voice-cha...software-in-vad-mode

VCSD 6.x is now support discontinued. You should try again with latest version of VCS from the link below:

mp3-player.audio4fun.com/free-audio-software.htm
