

No morph happening with Diamond 7.0.38

Posted by Ronald Williamson - 13 Jun 2012 04:18

Hi,

I can not hear any morph effects in my voice or in played files for my voice or any nick voices. Followed tutorials. All turned on. Have 8 core i7 w/9Gig RAM.

Suggestions?

Thanks,

Rusty

Hi Ronald,

Please update to the latest build 7.0.47 to fix the problem. Contact our Support Team for further instruction.

Also, can you tell us whether you use Voice Changer Software alone or with any other applications.

Regards.
