

## Cannot use downloaded voices

Posted by Jacob Madison - 24 Aug 2012 01:08

---

I have downloaded and installed a couple different voices and voicepacks. After installation, it says they are ready to use, however I can't find any of the new voices in any menu option or folder.

Hi Jacob,

Can you please be more specific on nickvoice packs you have downloaded so that we could take a check.
