

Lastast Version

Posted by Tina Gibbs - 09 Oct 2012 22:54

Hi I bought Av voice Changer 2 days ago, i have build 7.0.38, Trying deperately to download build 7.0.50 (the latest one), i have exausted all avenues and find it impossible to download it.

All registered users get the updates however it has not happened to me:(. Can anyone shed any light on this? thankyou

Hi Tina,

We are so sorry for the late response.

Kindly be informed that if you downloaded the EXE file from Your Licenses tab at Support Center, rest assured that it is the latest and no higher update is available.
