

cant get it to work

Posted by ben hawn - 14 Oct 2012 08:03

i set my audio so i can hear my own voice through feedback and it sounds morphed but when i go online or like on skype when i ask everyone says my voice sounds normal help please. 😞
on and in its any help my audio manager is realtek hd audio manager

Hi Ben,

Please make sure that you have set AV Virtual Audio Driver as Skype's audio processor. Details on support.audio4fun.com/tutorials/av-voice...tware-70-in-vad-mode
