

Can't get my driver installed..

Posted by mark - 18 Oct 2012 14:05

hey, I wanted to use voicechanger diamond 7 for skype. But i have downloaded it and everything was good except my driver install dont come up when i have installed it. And that is why my skype cant find my voice changer microfoon.., i try'd it several times and the driver just dont pop up.. please help me (sorry for my bad english)

Hi Mark,

In this case, we suggest manually install the driver. Please follow the instruction below:

Right-click on a VCS 7.0 shortcut >> Choose Propertises >> In Shortcut tab, select Open File Location >> Choose Driver folder >> Run drvinst.exe (32-bit OS) or _inst64.exe (64-bit OS) (It is recommended to Right-click » Run as Administrator) >> Wail till the MSDOS window automatically close

Hope this could help ^^
