

AOL/AIM not working

Posted by Anonymous - 02 Nov 2012 23:41

Hey there -- purchased VCS Diamond -- sounds fine to me with my mic/headphones, but the voice doesn't change when I try to chat online through AOL.

FYI, I'm using:

Voice Changer 7.0 Diamond

AOL Desktop 9.7

Windows 7

...and a blue Snowball mic.

Any suggestions?
