

## Why I don't see Microphone (Avnex Virtual Audio Device) in voice setting

Posted by vinh tran - 23 Mar 2013 00:01

---

They said me Go to Voice tab >> In Input device: Microphone (Avnex Virtual Audio Device)but I don't see them. I just see Microphone (Realtek High Defini. how I can do it

Thanks

Hi Vinh,

Regarding your problem, please check if AV Virtual Audio Driver has been installed properly on your computer.

How to: Start » Control Panel » Device Manager (icon view) » Expand Sound, video and game controllers list » Verify the entry for &quot;Avnex Virtual Audio Device&quot; is listed without a yellow exclamation or red x

By the way, which application are you trying to use with VCS?

Windows cannot verify the digital signature for the drivers required for this device. A recent hardware or software change might have installed a file that is signed incorrectly or damaged, or that might be malicious software from an unknown source. (Code 52)
