

## Skype interface

Posted by Daniel Rusciolelli - 12 Dec 2013 22:41

---

A newby to this and having great difficulty interfacing the desired voice into Skype. I followed the directions given in the video tutorial but heard only my own voice in the sound test app in Skype. Suggestions???

Thank you!

Hi Daniel,

Please check if the Virtual Audio Driver was properly installed.

By the way, screenshots of your PC's Sound Settings and Skype Audio Setting would be much helpful.
