

Is there a PLUS version? When is it coming?

Posted by Ken Joy - 23 Jan 2014 08:08

I can't get either AV Voice Changer Diamond 8, or File Morpher or Media Player Morpher to apply morphs to a batch of files without getting the message "coming soon in PLUS version..." and "All added effects will be removed."

WTF?

I've called, left messages, sent emails, opened tickets... and no response, and live chat is always offline. I finally asked for a refund today. Wonder if I'll hear back?

I'd like to use this program if it would do what it says and allow me to apply voice morphs to several files at once.

Help!

Thanks.

Hi Ken,

We are so sorry for the inconvenience.

Kindly be informed that File Morpher feature has just been unleashed. Please go to [Your License](#) page and download the update.
