

How to add parody voices

Posted by Jarrett Krätzer - 15 Apr 2014 13:46

Ive tried downloading parody voices and i cant find out how to use them anywhere. Can anyone help please?

Hi Jarrett,

Please double-click on it to run installing.

After successfully installed, the new voices will be available in Parody Mixer module » Ready parodies

I have the same problem - it doesn't work! usable parody voices which I loaded down are nowhere after installation, just XMS files or so. Any .wav file is not here. Please provide a usable procedure, otherwise I must buy another program and withdraw my payment.
