

Requesting License Reset

Posted by Julian Selman - 06 Sep 2014 08:27

Hello,

I've recently changed computers and am getting errors licensing the software on my new computer. May I have a license reset, please?

Thank you,

Julian

Hi Julian,

You have 3 active Voice Changer Software Diamond licenses in total. We have just reset them all for you to try on your new computers.

Please go to [Your licenses](#) page to download the latest build and access your licenses.

Nice day ^^
