

## can not record my changed voice

Posted by Anh Tran - 09 Jul 2017 18:39

---

Hello,

I have a full version. I have Windows 10 64 bit. I can't save my changed voice even though I followed all steps. When I clicked on Voice Recorder, speak on Mic, I could hear my changed voice. However, when I clicked on Record, speak on Mic, I could hear my changed voice too. When I clicked Stop and save it, I could hear my original own voice only. The same thing when I clicked on Play to review my voice.

Can someone help?

Thanks.

Dear Anh,

Thank you for contacting us.

Regarding your problem, please follow this tutorial and read Step 2 carefully:

>> [How to record your morphed voice and non-morphed voice](#)

Best regards,

Audio4fun Team.
